To Whom It May Concern:

As you are most likely aware, Hampton Township no longer conducts Dye Tests on an in-house basis. In accordance with Township of Hampton Ordinance #648 (adopted January 26, 2005), the procedure for storm water compliance testing (dye testing) is as follows:

- The applicant (usually the seller) will contact and retain the services of a Plumber listed on the Hampton Township Storm Water Compliance **Approved Testing Agency List**. *(The list is updated on an annual basis, so be sure to check the Township web site for updates.)*
- The applicant (or the approved agency representing the applicant) will file a Hampton Township Application for Storm Water Compliance Testing with the required forty-dollar (\$40) administrative fee.
- Within 10 days, the Environmental Services Department will issue a Storm Water Compliance Test Packet that will need to be picked up by either the applicant or the approved testing agency at the Township Municipal Building. *The applicant will be notified when the packet is ready.*
- When the test is completed, the testing agency will return the completed test report to the Hampton Township Municipal Building. The report must be returned at least 7 days prior to the closing date.
- Within the 7 days, (presuming that there are no violations reported) a Storm Water Compliance Certificate will be issued by the Township of Hampton and forwarded to the Township Tax Office. *If violations are noted on the Test Report, all violations must be corrected before a compliance certificate will be issued.*

All of the above-mentioned documents as well as an outline of Compliance Testing Standards and the Approved Testing Agency List will be available on the Hampton Township Website at www.hampton-pa.org or at the Hampton Municipal Building.

Please Note: *There is no exemption clause. All property sales or transfers that involve a change in the name on the property deed must be tested.*
